## **REGAL ENTERTAINMENT OFFERS COMPLIMENTARY ADMISSION**

**Salem, OR**– Oregon Paralyzed Veterans of America has an ongoing working relationship with Regal Entertainment Group locally to resolve ADA issues so that everyone can enjoy their moviegoing experience. Through that cooperative relationship, Regal has developed a complimentary admission policy for the attendant of the severely disabled and is pleased to make everyone's movie experience the best possible.

“Regal Entertainment Group is pleased to offer complimentary admission to those individuals acting in an assistive-companion role to assure that our guests with disabilities enjoy their moviegoing experience. At our theatres nationwide, we certainly work hard to ensure the best possible moviegoing experience for each and every guest,” stated Randy Smith, Regal Entertainment Group Chief Administrative Officer & Counsel. “Regal has specific training guidelines to ensure that our staff is prepared and knowledgeable to be as accommodating as possible to all our guests.”

### Regal Assistive Companion Pass Policy

Regal Entertainment Group wishes to be as accommodating as possible to persons with disabilities at our facilities. With well-trained cast members and amenities such as wheelchair seating, ramped walkways, accessible restrooms, assistive listening devices and drop down concession stations make a real difference in assuring all guests enjoy their visit. All persons with disabilities must pay the full ticket price for their particular age range (Adult, Child or Senior). However, if the individual guest requires assistance from an aide or companion to assure they enjoy their movie going experience, it is acceptable to give a free pass to individuals that are acting in an assistive-companion role.
